MOMENI Emissions Update 2023

MOMENI – SBTi Emissions Update

I. Introduction

As part of the Science Based Targets initiative (SBTi), MOMENI Group is committed to reducing direct and indirect emissions (Scope 1+2) by 42% by 2030 compared to the baseline in 2021. In addition, indirect emissions along the supply chains (Scope 3) will be measured and reduced as best as possible. SBTi is a collaboration between CDP, the United Nations Global Compact, the World Resources Institute and the World Wide Fund for Nature. The initiative supports companies to set science-based targets for a path to sustainable growth and emission reduction.
