Press release

## MOMENI Digital Ventures invests in Wirelane

- **Strategic investment in Wirelane, the leading German start-up for smart e-charging infrastructure for commercial real estate**
- **Investment amounting to a mid-seven-figure sum**
- **The step is aligned with MOMENI Group's ESG and innovation strategy**

**(Hamburg, Germany, December 2021) - MOMENI Digital Ventures has participated with a multi-million amount in the recently concluded series B round of funding.**

Wirelane, founded in 2016, is one of the leading providers of infrastructure for the public and semi-public charging of electric vehicles in Germany. The company offers innovative charging points, and a comprehensive e-mobility platform for the operation and management of charging points. In addition, Wirelane provides clients with end-to-end advice and assistance for planning, implementing and operating their infrastructure. The investment on the part of MOMENI Digital Ventures will grant Wirelane greater access to office buildings and retail properties in prime locations in Germany's major cities.

Juana M. Sacristán, Managing Director at MOMENI Digital Ventures, sees considerable potential in the development of Wirelane: "The broad offering, the great management vision, and the size and the appeal of the target market convinced us to invest in Wirelane. The company is one of the fastest-growing electromobility providers in Germany, and its scalable and technology-driven business model means it can become one of Europe's leading Charge Point Operator."

For MOMENI Group, the stake in Wirelane represents a further step toward forward-looking and sustainable transportation. "The strategic investment in Wirelane allows us to expand our ample portfolio of smart and user-friendly solutions. The technology developed by Wirelane meets to the full extend the quality expectations of our tenants and the MOMENI Group," explains Tim Fischer FRICS, also a Managing Director at MOMENI Digital Ventures.

Constantin Schwaab, Wirelane founder and CEO states: "With MOMENI Digital Ventures we have a further high-profile, strategic investor on board who shares our exceptionally high standards with regard to innovation, sustainability and customer benefits, and who will provide strong support for our growth plans and determination to deliver market-leading e-charging technology to the real estate industry."

# MOMENI

MOMENI Digital Ventures joins existing Wirelane strategic investors from the real estate management and development sector, such as ABACON Capital, the technology-focused investment vehicle of the BÜLL Family Office.

## About MOMENI

The MOMENI Group, founded in 2004, is one of the leading privately owned investment, development and management companies focusing on Class A real estate in inner-city locations in Germany's major cities.

## **About Wirelane**

Wirelane is a leading provider of charging infrastructure solutions for electric vehicles (EVs). The company was established in 2016, and pursues a vision of a simple, ubiquitous EV charging experience under the banner “Charge. Pay. Done.”

Wirelane customers benefit from end-to-end solutions for the installation, operation and marketing of charging infrastructure, including in-house developed charging points and a powerful operating and payment platform. Currently, the cloud-based WirelaneOS software solution is employed for the vendor-agnostic control and management of more than 13,000 charging points.

As an e-mobility provider (EMP), Wirelane offers access to more than 95,000 public charging points throughout Europe, and allows utilities and other business customers to use the charging infrastructure management software for their own consumer offerings. Wirelane processes more than 60,000 charging transactions for customers every month. The company, with bases in Munich and Berlin, collaborates with organizations in diverse sectors, including major corporations such as BMW and Vattenfall, but also hotel and tourism businesses, and local government bodies, such as the Municipality of Greater Munich.
